S.U.B. OFFICIALLY OPENED

New System Inaugurated . . .

To Name Gateway Editors At End of Calendar Year

Christmas to Christmas! That's the new term of office for the Editors-in-Chief of The Gateway. To have the editor's term coincide with the calendar year was one phase of the solution to Gateway staff problems offered to Students' Council by Jim Woods at the end of last session.

On acceptance of the proposal Jim, Editor-in-Chief for 1947-48, agreed to take on his old job for the interim period from September to December before the new system goes into effect.

President Stewart Meets Freshmen At Mixer Dance

Even University presidents are not immune to the treatment handed out to the Freshmen during their first week at the University of Alberta.

Saturday night at the Frosh Mixer, Prof. Andrew Stewart, new president of U. of A., donned the beanie and bow tie given him by Dick McDonald, master of ceremonies, to the acclamation of several hundred other Frosh who attended the dance. President Stewart took the ribbing in his stride and replied that he would try to be as good a freshman president as they were students, but that he was not committing himself.

The music for the dance, which was held in the Drill Hall under the sponsorship of the Freshman Introduction Committee, was provided by Kay Pitcher and his orchestra.

One of the highlights of the evening was the make-up contest in which four freshman girls made up four freshman boys with wigs, lipstick, rouge and mascara. The audience then picked the one who made the prettiest girl, and the winner was presented with a prize. In addition, prizes were given to those selected in the spot dances.

Mixed climaxed the events for the new students, as it ended their freshman week activities.

Session Sees Inauguration Of Student Advisory Service

Hut H at the north end of the campus houses a new department whose sole purpose is to offer personal service to students.

For many years, the University has been concerned with assisting the new student with his adjustment to campus life. The Freshman Committee, under the chairmanship of the late Professor Sheldon, was formed for this purpose. Later on in 1945 the Consultants Committee took over under the direction of Dean H. E. Smith of the Faculty of Education. All this work was done on a committee basis, with the co-operation of many members of the faculty.

The growth of the student body made it imperative that a more continuous and a more extensive service be provided. As a result a new department was formed, effective September 1st, with Professor A. J. Cook at its head.

Dr. Cook served actively as Adviser to Student Veterans during the rush period of veteran admissions beginning September, 1945. He has been a member of the department of Mathematics for many years. He is a graduate of the University, having entered as a freshman in engineering in 1913. He has long been known for his friendly, personal interest in students.

The new service is in its infancy, but a good start has been made. A general information form was sent out to all new students, partly to offer them assistance with their choice of course. Many enquiries and interviews have resulted. This try-out has provided valuable experience, and it is hoped that new methods of reaching high school students and informing them about the University will result.

Dr. Cook stressed that the Service is for all students, not only for new students. Already students are becoming aware of this, and are beginning to drop in at the office. He particularly wanted student veterans to know that he is continuing to serve as their Adviser. During the past two years this personal service was in effect discontinued. He hopes that the student veteran will now feel free to consult with him at any time.

When asked whether other Canadian Universities had similar services, the Director said that British Columbia, Queens, McGill, McMaster and Western had extended the Student Veteran Service to all students. The move at Alberta was in line with what was happening in other Canadian institutions. As far as he knew, Toronto had not yet settled its policy in this regard.

The office is in Hut H, Room 14. Phone 369229.

Initiates To Tribe Wauneita . . .

High light of registration week for Freshettes was their initiation into the mysteries of The Tribe Wauneita, which took place last Thursday evening in the Wauneita room. Shown above, in full regalia, are: back row (l. to r.), Donna Turner, Jean Hymas, June

McDougall, Pauline Sutermeister (President of the Wauneita Society), Mrs. I. M. Morrison (Honorary President), and Jocelyn Rogers (Vice-President); in the front row (l. to r.), Hiawatha's Secret (unidentified), Fran Farley and Helen Millar.

Initiate Three Hundred Wauneitas

By Sheila McGugan

Special Lecture

Frosh, and Upperclass students too, just shouldn't miss this special lecture on "Efficient Study Habits" which will be given in Med 142 on Wednesday, Oct. 11, at 4:30 p.m., by Prof. George M. Dunlop.

Prof. Dunlop is Chairman of the Division of Educational Psychology in the Faculty of Education. During the past number of years he has given special attention to the study problems of new students in the Faculty of Education.

This will be the first in a short series of special lectures being arranged for new students by the Department of Student Advisory Services.

Where Are They?

The opening of the new Students' Union Building is apt to cause confusion in respect to the designation of various campus social centres.

It is suggested that the Students' Union Building itself be called the S.U.B.

To differentiate it from the Caf and Tuck the S.U.B. eating spot should be called The Snack Bar.

It should also be noted that the Students' Union General Office, the President's Office, the Permanent Secretary-Accountant's Office, and the Alumnae Office are all on the second floor of the S.U.B. The Gateway, Evergreen and Gold, and Photo Directorate are all on the third floor. Set and the University Press Bureau have space in The Gateway office, while the Alarm is in with the Evergreen and Gold.

NOTICE

The next edition of The Gateway will appear on Tuesday, Oct. 10. As Monday, Oct. 9, is a holiday, the deadline for this paper will be 12 midnight, Oct. 5.

Free X-Ray

The Mobile Chest X-Ray Unit of the Department of Public Health will be on this campus until Friday, Oct. 6, it was announced by the committee on Student Medical Services.

The clinic will be situated at the south door of the Varsity Gymnasium (Drill Hall).

All students are urged to take advantage of this opportunity to have a chest X-ray entirely free of charge. This service is supplied to carry on the fight against Tuberculosis, and your presence at the X-Ray Unit is your contribution in this respect.

This opportunity is not restricted to Freshmen, but is open to all students on the campus.

P. S. WARREN,
Chairman, Committee on Student Medical Services.

Cold Weather Stops Pep Rally

Pep rally and snake dance originally scheduled for last Wednesday night as part of Freshman Week festivities was postponed because of cold weather.

Frosh Week Director Pat Mahoney has advised The Gateway that the rally will probably be held sometime this week, weather permitting.

Should that eventuality arise and the rally is not carried through this week, it is possible that it will be the snake dance may end at Clarke held the next week. In that case, Stadium, where an Eskimo football game is scheduled, Oct. 14.

Impressive Event Draws Dignitaries

Dreams of decades and plans of the past five years materialized Thursday afternoon when stage one of the Students' Union Building was opened officially by Hon. Ivan Casey, Alberta minister of education.

Three hundred official guests crowded the Mixed Lounge for the half-hour ceremony, originally scheduled to be held on the steps of the new \$500,000 structure. Cold, wet weather was the reason for the change in plans.

Students crowded other sections of the building to hear the ceremony over the public address system. In the lower-floor Snack Bar, several hundred attentive ears listened to the P.A. loudspeaker.

Hundreds of students and thousands of interested alumni and friends of the University listened in the evening to recorded broadcasts of the ceremony over two local radio stations.

Official guests included representatives of the province, the city of Edmonton and other Alberta cities, the university board of governors, senate and faculty, the chamber of commerce, service clubs, business men and others who contributed to make the project a success.

Platform Party

On the platform with Mr. Casey were University President Andrew Stewart; Hon. J. J. Bowlen, Lieutenant-governor of Alberta; Chief Justice G. B. O'Connor; Francis G. Winspear, president of the Canadian Chamber of Commerce and chairman of the students' advisory board; Charles M. MacLeod, chairman of the university board of governors; Oliver C. McIntyre, member of the board of governors; Edmonton's Acting Mayor R. F. Hanna; Ald. Noel Hutchinson, of Calgary; Prof. I. F. Morrison, liaison between the students' union and the university administration; and Tevie Miller, last year's Students' Union president. Union President Michael O'Byrne was master of ceremonies.

Mr. Casey cut the tape underneath a model of the Students' Union Building as it will look when all stages are completed.

Minister's Address

In his address, Mr. Casey declared that, "There are few important events in the history of an educational institution. I believe this event will, in the future, be looked upon as an important event in the history of the University of Alberta."

"The part of the government has been a minor one," he continued. "It is through the efforts of the students themselves that the building has reached the stage it has. It must have been a great effort on the part of student governments, with the whole-hearted support of students, past and present."

The cabinet minister said the government is glad to assist students in any way. He told the assembly that the new building is a business and recreational centre of great benefit to the students and the university as a whole. He added that it may be a number of years before the extent of the benefits that may accrue are realized.

Union Business

"It is a centre where students can gather and the business of the Students' Union can be carried on in more comfort than ever before," Mr. Casey continued. "Students' Union business has yearly become more and more important. An essential part of students' training is their participation in activities sponsored by the Students' Union."

President Stewart

President Stewart, officiating for the first time at a public ceremony as head of the university, extended the thanks of the university to "all those who have had a share in the completion of this project."

"It is a unique building on the campus," he continued. "It belongs to the students and they are purchasing it."

"The building will serve a general purpose if it provided students not only with the power of self-government, but also proof of the capacity to govern themselves wisely," President Stewart added. "I feel confident that purpose will be achieved."

President O'Byrne

Students' Union President Mike O'Byrne stated that "students past and present can feel proud of the success of a venture unique in the annals of Canadian universities. It is the only students' union building entirely financed by students."

He described briefly the history of the project, especially from 1946 when, he said, "the wheels were put in motion to make the dream a reality."

He paid tribute to the Students' Union presidents of the past few years who, he said, contributed unstintingly to make the building possible.

"Without the provincial government's concern, financing of the building would have been impossible."

(Continued on Page 2, Col. 4.)

New Students' Union Building was scene of afternoon of activity Thursday when opening ceremonies were held. At left, above, having tea in Wauneita Room after the ceremonies are Pete Lougheed, Jim Dockery, Ald. A. N. Hutchinson of Calgary, Ernie Hutchinson, and Ted Allen. In photo

second from left, education minister Ivan Casey (left) is shown cutting the ribbon with University President Andrew Stewart and Students' Union President Michael O'Byrne looking on. Three little girls from school are seen mounting stairs to top

floor of the new building in the next photograph. They are Audrey Rigaux, Shirley Montalbetti, and Betty Lynch-Staunton. At right, Mrs. Jack Neilson pours tea for official guests. Standing with tea-cup in hand is Miss Jean Noy.

Policy

It is customary at the beginning of each session for an editorial to appear on Gateway policy. Past editorials usually stated that full coverage would be given to campus news, that editorial comment would be confined to the editorial page, that all students would be given an opportunity to express their opinions in the columns of The Gateway and that full co-operation would be extended to campus organizations. That is still the policy of The Gateway, but this year it is with more than an eye to custom that such an editorial appears. It is with an eye to the very survival of The Gateway itself that this particular editorial on policy appears.

Last year was one of a great many difficulties and vicissitudes for The Gateway and The Gateway staff. Three members of the staff failed to pass their examinations. That such was the case was due, in part at least, to the tremendous amount of time these people devoted to The Gateway. That they should have had the opportunity to display such foolhardy loyalty is a disgrace to the student body of this university. The thought of a recurrence of such an event is abhorrent, and it is therefore essential that some system be evolved whereby the burden of publishing The Gateway can be more equitably distributed.

The cold hard fact of these three failures brought about this editorial and the following statement of policy.

First comes the problem of staff. It is admitted that The Gateway has been somewhat remiss in the past few years in offering new members a chance to learn and has neglected the training and encouragement of recruits. This matter is already in hand. The Managing Editor, a student of journalism from the United States and now enrolled at Alberta, will have as her primary responsibility the training of all new Gateway staff. In this manner it is hoped that those students who volunteer to help on The Gateway during that great burst of registration week enthusiasm will become interested enough to stay and thus provide a pool of experienced staff from which future editors can be drawn. And it would be well to note that the recruitment of a new staff is not restricted to the listing of Freshmen on The Gateway masthead. In order to cover campus news properly it will be necessary for students wise in the ways and organizations of this campus to lend a helping hand.

After the problem of staff comes that of news coverage itself. It is time that cognizance was taken of the fact that a student newspaper has neither the staff nor the organization of a big city daily; that its time is curriculum-bound; and that the rewards to its staff are almost wholly aesthetic. These facts make it impossible for the staff to fully cover campus activities without assistance from outside. Those organizations which seek to use The Gateway as their rightful medium of publicity must lend every assistance within their power. To this end a system will be operated this year whereby every student organization must register their executive with The Gateway. A form for this purpose will be found elsewhere on this page.

It will be noted that on this form there appears a space for the registration of a publicity man. It is suggested that if any of the student organizations on the campus do not already have such a man on their executive, they immediately appoint one or name an executive member to act in that capacity. These forms should be filled out and turned in to The Gateway as soon as possible.

As a matter of policy, publicity will not be provided for any campus organization that does not register with The Gateway.

It is to be hoped that we will not be considered as wielding a big club in this matter. The importance of this registration can easily be seen by those who know the great amount of time that can be, and is, expended in running down someone "in the know" on any given campus activity. With this registration The Gateway will be able to get information promptly and from someone in authority.

In addition to the above, further assistance is required from campus organizations. Publicity men are asked to keep The Gateway informed on the activities of their own particular organizations. By this we do not mean that we expect the publicity men to write the news for us. What we want is the tip-off. When we get it we can do a proper job of work on it.

In short, we have neither the time nor the staff to cover every single activity on the campus. This system has therefore been instituted. We will do everything in our power to co-operate in the publicizing of campus activities in so far as news space permits. But we cannot do anything without the whole-hearted co-operation of the student body and its component organizations.

This editorial was intended to be strong; it is hoped that it will not be considered too strong. Perhaps some may think it

contains too much of the "You scratch my back and I'll scratch your back" attitude. We hope it does not. We wish to serve the student body. We wish to pass our examinations. This is the only way we can see to do both.

TERM OF OFFICE

This session will see the inauguration of a new system in the appointment of student officials. The Editor-in-Chief of The Gateway for the latter half of this session and the first half of next will be appointed at Christmas time. In so far as we know, this is the first time any student official has ever been appointed on a split session basis. It is an experiment well worth watching.

There are obvious drawbacks to such a method of appointment. An editor in the last half of his tenure may commit his successor in the first half of his to policies and actions with which the latter is not in entire agreement. Students in three-year courses would have to qualify by the middle of their second year. Or perhaps some staff members might leave at mid-term with the departing editor.

To offset these drawbacks, however, are a number of equally cogent advantages: an editor will not step into office at the beginning of a session with a minimum of staff and a weak grasp of the intricacies of his organization. In the first half of his term an editor could gather about him a group of trustworthy contemporaries upon whom he could rely at the beginning of the next session. A retiring editor would still be on the campus for the first half of his successor's term and would be able to tie up any loose ends which might appear or give counsel on difficult problems. And too, Students' Council in making the appointment, would be appointing someone with whom they knew they would have to deal for half a term, instead of appointing someone for the next council to deal with.

From the point of view of efficient publication of The Gateway, the new system bids fair to overcome the registration week difficulties of past years and to provide for much needed continuity in staff.

As we said, the experiment will bear watching. Although it is peculiarly adapted to The Gateway's problems it might, if it works, fit in with some other campus organizations. It is not suggested, however, that it would work in all cases.

We can but wait and see.

In Memoriam

Dean
R. D. Sinclair

A Message From ... Your House Committee

After many years of planning, the Students' Union Building has become a reality. It will be difficult for Freshmen to realize what an asset this advent is to the extra-curricular life of the University, but all upperclass men and women must certainly realize that at last they have a central location where they can meet with their friends in pleasant, comfortable surroundings and conduct their social, cultural and business affairs in an atmosphere undreamed of in the past.

The Students' Union Building is the hub of campus activities. As such, organization of the many functions which will be carried on within its walls presents a problem to the Students' Union Building House Committee, and offers a challenge to each and every student. Only by co-operation with each other and with the committee, and by consideration for your fellow students can we hope to achieve a smooth running, happy home for you on the campus.

You can help your House Committee considerably in its job of keeping the building a pleasant place by observing the necessary regulations. (These are posted on the bulletin board in the rotunda—please familiarize yourself with them.)

Further, we would ask those student organizations which wish to use the facilities of the building for special club functions to apply in

writing to the Students' Union Building House Committee, stating the date, time, purpose and nature of the meeting together with the number expected to be present. This material must be in the hands of the committee at least one week before the date requested.

Several house regulations which require special stress are those regarding drinks and food in the lounges and smoking while using the pool tables. These rules are necessary because of the large amount of money invested in the furniture, hardwood floors and billiard tables. Burns, stained woodwork, upholstery and floors will result if these regulations are not observed.

One matter of common courtesy should be noted. Most fellows seem to think that snooker or pool is a game for men. Perhaps the reason for this has been that in most centres billiard facilities for women have been non-existent or greatly restricted. In this building, however, all the facilities of the games room are open for men and women. Perhaps some of you "sharks" could take it upon yourselves to teach some pretty little coeds to play the game. It should prove enjoyable and enlightening for both parties.

FOUND

Ladies' wrist watch, October 2, at 9:30 a.m., in front of the Med Building. Owner please Phone 31360 after 7:00 p.m., or contact Gateway office.

S.U.B. Opening

(Continued from Page 1)

sible," Mr. O'Byrne added. "We are truly grateful."

He expressed thanks for the support received from the university administration, and said a "debt of gratitude" is owed to members of the students' advisory board and Dr. Robert Newton, past president of the University.

"Following construction of the building," the Students' Union president said, "the onus was placed on business men, who gave generously to the building's furnishing fund campaign." He concluded: "On behalf of the students of the University of Alberta, I can only say thank you."

Following the ceremony, members of the Golden Key Society conducted the officials guests on tours of the building. A tea was held in the Wauneta Lounge.

One alumnus was heard to remark, "You don't know how lucky you are. How we'd have loved a building like this twenty years ago."

During the ceremony a letter from Dr. Newton, who was unable to attend the opening, was read by Mike O'Byrne. It said, in part:

"The opening of the Students' Union Building is a dream fulfilled by far-sighted, energetic and self-denying action. Most of the students who have so far contributed to the construction of the building will get little direct use of it. They have the satisfaction of leaving the university better than they found it, and of increasing the comfort and enlarging the opportunities of future generations."

"Congratulations to the students now entering the premises. I am sure they will remember the generosity of the provincial government and the labor of their predecessors, and will strive to carry the project forward another stage in their turn."

Remaining stages of the Students' Union Building, to be built between the now-completed First Stage and the Varsity Gym, consist of two more units, which will include a gymnasium, swimming pool and auditorium.

Some of those who have given their time and efforts to bringing the project to a successful culmination are: Students' Union presidents for the past five years, William Pybus, George Hartling, Bernard Bowlen, Tevie Miller and Michael O'Byrne; chairmen and members of the students' advisory board, Dr. John Neilson, Barclay Pitfield, Prof. L. A. Thorsen, Gordon Wynn, John Markle, Walter Dinwoodie, Ronald Manery and Varga Gilchrist; Hon. Mr. Justice H. H. Parlee, past chairman of the board of governors; Dr. G. Fred McNally, chancellor of the university; Miss Mabel Patrick, director of the School of Household Economics, and Mr. Winspear, who conducted the furnishing fund campaign.

TENDERS

Sealed tenders will be received at The Gateway Office, S.U.B., up until 12 noon, Saturday, October 7th, from students with cars who wish to bid for a delivery service from The Gateway office to downtown twice daily.

The successful bidder will be required to call in at The Gateway office each morning and afternoon Monday through Friday, and each Saturday morning. Deliveries and pick-ups will be made to and from Pazder's Art Engraving, 9737 109 St., The Edmonton Journal, and other points in the downtown shopping district.

The lowest bid will not necessarily be accepted.

GOLDEN BEARS PLAN BANNER SEASON

Intramural Action Opens This Week

Men's intramural program will swing into action this week as entries are called for in five events on the fall calendar. Record participation is expected in all of them.

First to open will be the touch football league, featuring a form of the grid pastime especially designed for the average athlete on the campus. Sixteen nine-man teams were entered last year. Also to be run off in the next week or two will be the tennis. Others on the fall menu will be golf, track and field, and the annual cross country race. Here is the way the schedule will line up, with entry dates and regulations:

GOLF:

One of the most popular events on the fall intramural program last year was the golf tournament, held at the Prince Rupert course. More than ninety divot-diggers were entered, and the target for this year is 150. To the winning four-man team representing any club, frat, residence, etc., on the campus will go the J. Macgregor Smith trophy. This trophy was awarded by Dr. W. Shandro, well-known former athlete at U. of A. It will be presented to the winner at Color Night in the spring.

Stressed by Herb McLachlin, director of intramurals, was the fact that any golfer is invited to enter. "Don't worry about your game," says Herb. "If you shoot 160, somebody else will probably shoot 165."

TOUCH FOOTBALL:

This league, which replaces the tackle form of the game, was formed last year for the first time, with sixteen teams of nine men each entered. Games are played at the grid. The league will start October 5, and anyone is invited to get up a team and enter. Any boys wanting further details, or wanting to get on a team, are asked to see Herb McLachlin in the Physical Education offices immediately.

And don't be fooled by the name "touch" football. There may be no tackling involved, but the game is plenty rugged enough to suit even the most ardent pigskin enthusiast. Entries should be in to the Phys. Ed. office by Oct. 5.

TENNIS:

Intramural tennis will get under way on Thursday, Oct. 5, at the varsity courts. Anyone is invited to enter, with the deadline set for 5 o'clock, Wednesday, Oct. 4. The draw, along with the rules and regulations, will be posted in the gym on Thursday.

TRACK AND FIELD:

Annual track and field meet will be held at the varsity track on Saturday, Oct. 21. To the group winners will go the Archibald West trophy, point scores to be determined on a basis of 5 for a first, 3 for a second, and 1 for a third. An individual winners will also be declared with his point total to count on his aggregate score for the year. Last year's individual track winner was Ken Moore, with Delta Upsilon coming out on top in the group standings. It is hoped that last year's entry of forty will be bettered by a considerable number.

CROSS COUNTRY:

This is one of the top events of the fall calendar. Last year more than ninety entrants struggled around the three-mile course, which covered some of the more rugged terrain around the university grounds. All you freshmen should note that last year's winner was a first year student, Stu Munro from Calgary. This is an event that is among the most popular on a number of varsity campuses, sometimes drawing three or four hundred competitors. Intramural officials would like to make this the top event of the fall season.

Copies of the route will be posted in the Phys. Ed. office and the gym next week. Entries will be accepted

any time from now until the time of the race.

All prospective participants are reminded that the points scored by them in all intramural events will count towards their own aggregate totals, and for the group totals of the organizations which they represent. The individual performer with the highest point standing at the end of the year will be awarded the Motor Car Supply Trophy. To the group winners will go the Henry Singer Trophy. Both of these will be awarded at Color Night.

Further details of the intramural program will appear on the notice board in the gym. A special invitation to freshmen is extended by Herb McLachlin to drop in to the Physical Education office any time for any information they require in connection with the intramural program.

Do you want to play volleyball but don't know how? The intramural league is for you, for instruction is given, and also you get out and really play the game. Skills in play and many lasting friendships are made through sports.

This year for the first time the W.A.A. is sponsoring intramural team leagues instead of interfaculty team leagues. The new intramural leagues will include teams from faculties, clubs, residences and fraternities. These intramural leagues will include volleyball, basketball and badminton. The sport year is divided up so you can play all of these sports. Before Christmas, volleyball will be played every Tuesday evening from 7:30 to 9:30, beginning October 10th in Athabasca Gym. After Christmas, basketball will be in the limelight during those hours. Badminton will be played at the Varsity Gym each Tuesday and Thursday evening. Miss Fildes will coach all interested players.

The sports we are most interested in these days are tennis and golf, both of which are intramurals.

Remember the intramural leagues and sports are not for top-notchers only, but for the average and less than average player. In fact, as far as basketball is concerned, no Panda player will be "even-steven". Do co-operate and participate in these, your sports.

NOTICE

The Gateway needs sports reporters! If you have aspirations as a future Grantland Rice, this is your chance to get valuable experience. You can see your varsity athletes in action, and at the same time help out the student publication.

An organizational meeting is being held Wednesday night at 7:30 p.m. in The Gateway office on the third floor of the Students' Union Building. Don't miss it!

The first census since 1946 is to be taken in Norway this fall. The questionnaire will cover education and family composition—a new departure in Norway.

Intramural Trophy

Awarded to the winning team in the intramural golf tournament, the J. Macgregor Smith trophy is one of the finest up for competition in this year's intramural program. It was donated by Dr. W. A. Shandro, former varsity athlete.

Campus SPORTALK

By Jim Redmond

Things Are Lookin' Up

Prospects for a top-drawer basketball season are very bright indeed. We were over at the gym Saturday afternoon to get a look at the material on hand as the Golden Bears went through their first workout of the season. And from the look of the talent that showed up, Coach Maury Van Vliet's biggest problem at the beginning of the city league schedule is going to come when he has to decide which of the fellows to cut from the 20 or 30-odd now turning out for practices. This year's squad, when it's finally chosen, should be a real threat for provincial honors and perhaps more.

Two members of last season's young, inexperienced, but hustling team of students are gone, in the persons of Jim Macrae and Lowell Williams. Otherwise, the campus quintette of last year should be practically intact.

Add to the array of talent remaining from last year's provincial finalists the following names, and you'll see what we mean. There's Geoff Mortimer, with experience galore in stiff senior competition... big Ed Lucht, former high-scoring centre star in Edmonton high school ranks, and last season with Waterloo Meteors... Johnny Higgins, Don Newton, Reed Erickson, Don McIntosh, and several others from the south. Several good juniors of Don Smith's provincial champion Bearcats and a couple of Edmonton high school graduates were also on hand.

Biggest asset of the newcomers is probably their added height. This is one thing that the Bears have been shy on for the past few years. Even the powerhouse Bruin squad of '46, '47 and '48 didn't stand out in this respect. Boyd Oberholfer and Gord McCormack were the only members of these teams who were much above the six-foot mark.

But look at the following statistics:

Ed Lucht is 6ft. 6½in. and still growing; Geoff Mortimer is 6ft. 4in., to mention only a couple. This added height should give the Bears a real lift (no pun intended) in the all-important rebound department.

Varsity hoop fans had better not get the idea, though, that their representatives are any kind of a shoo-in for even local honors. Rumor has it that the Waterloo Meteors, still ranked by their upset defeat at the hands of the students last winter, will be well-stocked with capable casaba performers. The oilmen will take on even more of a varsity flavor as Bill Price returns from the south to fill a spot on their roster, along with Jim Macrae. Maybe the former Star-dust twins won't team up again on the Meteors, but if they do, watch out.

Another former college star, though not from the local campus, may also be with Meteors. This is strictly in the rumor stage, but big Rollin Prather, currently chasing pigskins (and Stampede) with the Eskimos, is reported head for Jim Christiansen's motor-men. Prather, 6ft 5in. of bone and muscle, was a centre with Kansas State in the U.S.

A Sad Note...

One change not exactly to the liking of the campus cage fans may be in the books. Officials of the E.B.A. (Edmonton Basketball Association) are reported considering a change of locale for city league games. Contests may be played at the posh new Victoria Composite High School gym. Reason for the move likely is to boost attendance. Crowds at some of last year's games, which were all played at the Varsity gym, scarcely outnumbered the players.

Undoubtedly the officials would be satisfied with the former set-up if crowds justified it, which would seem to put the onus upon the students to show their willingness to support the top-notch cage-fare offered.

In any case, there will be considerable action on the local floor. Exhibition games with Southern Alberta squads likely will be held, several games with American colleges may be played here on the campus, two of the four games in the Rigby trophy series with Saskatchewan are set for the gym in November, and several well-known touring aggregations may also show their wares against the Green and Gold.

All-in-all, it looks as if basketball will hold the major portion of the sports spotlight on the campus this winter.

By the way, whatever became of the Calgary Stampede?

Golf, Tennis Meet Slated October 21, 22

Intercollegiate golf and tennis, with U. of S. as the opponents, and featuring both men's and women's events, will take place the weekend of October 21 and 22. Both events are slated for the local campus.

This year's meet will be different in one major respect from those of recent years, as track and field has been dropped. Last year, in addition to the golf and tennis, men's track and field was on the fall agenda.

In the '49 meet, Saskatchewan made a clean sweep, as the locals managed to salvage only four events in track, one in tennis and one in golf. This year, Phys. Ed. department officials report that prospects look brighter. With track eliminated from the program and a brighter general outlook in tennis, the hope is that Alberta will make a better showing.

A number of promising racquet-wielders who are expected to be on hand when tryouts open should give more depth to the squad than was the case last year, according to Miss Elaine Fildes, in charge of organizing the team.

Among the players who will be trying for places on the Alberta net squad will be the following: For the men's team, Ed Trott, one of Alberta's representatives last year, will be back, along with newcomers Frank Oliver, Don McIntosh, and Alan and Derek Batchelor. Oliver Edmonton, while McIntosh is from Calgary.

Among those trying out for places on the women's team will be Evelyn Linke, Nancy Collinge, Flora Morrison, Billie Niblock, and Muriel Clapp.

Although Alberta provincial champion Johnny Stott is not here this year, his loss should be made up for by the added depth supplied by this selection of newcomers.

The women's team should be stronger this year. Nancy Collinge, senior ladies' champion in Edmonton and only U. of A. winner last year, is back, along with another outstanding Edmonton artist, Evelyn Linke. Practices for the racquet-wielders will get underway soon, and Coach Fildes asks that anyone else wishing to try for a place should make it a point to be on hand.

Women's golf team should be stronger, too. Among those expected to be trying out are Fran Farley, Enid Hannah, Betty Ann Loveseth, Mary Millar and Ollie Darilko. Little is known as yet about the strength of the male golfers on the campus this year. Their team will be made up of the top finishers in the 36-hole intramural tournament to be held Oct. 14.

Meteor?

Bill Price

School For Refs To Begin Oct. 12 At Rec Building

Prospective basketball officials will have a chance to obtain expert instruction in refereeing at an official's school to be held at the Edmonton Recreation Building, starting next week.

Members of the Physical Education Department have announced that the school, which will have several prominent local whistle-blowers as the instructors, will start Thursday, Oct. 12, at 8:30.

An invitation has been extended to any varsity student interested in taking the course to be on hand. Preference in selecting officials for refereeing assignments during the winter on the campus will go to graduates of this official's school.

Among the instructors who will be on hand are Herb McLachlin and Don Smith of the University Phys. Ed. Department, and Ed Tomick, one of Edmonton's top cage refs. The Recreation Commission Building, where the school is to be held, is located at 100 street and 103 ave.

Valuable New Additions Increase Bruin Strength

Varsity Golden Bears, basketball version, held their first workout of the season Saturday, as preparations begin for what should be a banner season.

Bear officials are planning for a full schedule this year, with the squad holding down a place in the city senior league for the second year in a row, while at the same time they will defend the Rigby trophy against Saskatchewan Huskies. On top of this, it is also hoped that Bruins will re-enter international competition with games against several American colleges.

Meteor?

Jim Macrae

Likely to be united again this year are the pair of varsity graduates pictured on this page. Bill Price and Jim Macrae, known during their varsity days as "The Star Dust Twins", are rumored headed for the ranks of the Waterloo Meteors, coached by Bob Strother, another U. of A. grad. Price, who played in the South last year, has returned to the city to take employment with the firm sponsoring the team. Macrae, a member of the Golden Bears last season, is currently a member of Annis Stukus's footballing Eskimos.

Several performers well known to Edmonton basketball fans also will be on hand. Among them are Geoff Mortimer, 6ft. 4½in., a veteran high-scoring centre, who played here in Edmonton the last few seasons with such teams as the R.C.M.P. and Waterloo Meteors. Two other former Meteors also will line up with the Van Vliet cagers. There's 6ft. 6½in. Ed Lucht, who starred at centre for the oil-men last winter and with Vic High before that, and John Higgins, with Meteors two years ago.

The outstanding characteristic of the majority of the newcomers is the height they bring with them. Almost all are well over six feet. For the next few weeks regular workouts will be the order of the day, with practices being held each day at 4:30 in the gym.

U of A Offers New Phys. Ed. Course

University of Alberta will soon be turning out fully-qualified physical education instructors for Alberta's schools.

New degree course in physical education is to be offered for first time beginning this term, it is announced by university officials.

Under the course graduates will obtain, besides their degree in physical education, a regular bachelor of education degree and their teaching certificate for the province.

Bearcats Future Now Uncertain

Future of last year's provincial junior champs, the Varsity Bearcats, is very much up in the air at the present time. An amendment to the constitution of the Edmonton Basketball Association, who controlled the city junior men's league in which the junior Bruins played last year, may make it impossible for the 'Cats to enter.

After finishing second in regular league play during the '49-'50 season, their first break in league play for several years, the Bearcats beat out the first place finishers, McKinnon's Eagles, for the city and provincial title. Then, due to the pressure of exams, the students were unable to continue in inter-provincial competition.

All of this meant that Alberta was nearly left without a representative in the Dominion playdowns. Now it appears that, to prevent a recurrence of this situation, the Edmonton Basketball Association will make it constitutionally impossible, or at least very costly, for a team to withdraw from playdowns after winning the title.

E.B.A. officials have made a constitutional amendment which requires that a bond be posted by all teams under its jurisdiction to insure that, should a team win its way into inter-provincial play, it will continue in the playdowns.

Last year the Bearcats had a number of engineering students on the line-up, and their early exams formed the team's withdrawal. If this situation occurred this year, the junior Bruins would be unable to enter league play.

Further meeting of the E.B.A. is expected to be held this week, when the amendment will be discussed.

In any case, the team will face a rebuilding task. Only four members of last year's provincial junior champs are still within the junior age limit, according to coach Don Smith. They are Jim Black, Chuck Hantho, Jim Day and Chuck Anderson.

Co-Ed Clippings

By Sheila McGugan and Rita Dickson

Women's intramural activities will get under way this week, and as usual they should be bursting with energy and enthusiasm.

Intramural golf tournament will be Oct. 14, and the three winning golfers will play against Saskatchewan. Games with U. of S. will be held at Mayfair the week-end of Oct. 21 and 22. All entry forms should be in to the W.A.A. office by noon Wednesday, Oct. 4. Times for golf will be announced later.

Intramural tennis will start immediately, with the same entry deadline. First round of tennis is to be played by Saturday, and these finals should be concluded Oct. 14.

Intervarsity tennis tryouts will be held on Wednesday, Oct. 4, from three to six at Varsity courts behind Pembina. These tryouts will be for both men and women. Three players will be chosen by Miss Fildes for each final tennis team to play against Saskatchewan. These three will not necessarily be the winners of the intramural tournament. How about having a big turnout?

And now, swing your partners to the first square-dance night, Thursday, Oct. 19, in the Athabasca Gym at 7:30. These popular evenings will be held every other week, with the alternate Thursday being taken up by coaching in the particular sport which is in the limelight during that season.

The Panda tryout practice will be held Wednesday, Oct. 4, from seven to eight-thirty in Athabasca Gym. But don't panic if you can't go. Just go to the W.A.A. office, room 20 in the basement of Athabasca. If no one is there, please leave a note with your name and address and phone number on it.

Applications for managers of badminton and volleyball are to be handed in before Oct. 10. These will consist of a letter giving particulars of experience, and will also be handed in to the W.A. office.

Officials Club, which is led by the Physical Education Department, gives training in sports leadership, refereeing and the rules of each game. For one and all, it is a marvellous opportunity to learn the fundamentals of these things, and have a good time doing it. This club begins Wednesday, Oct. 4, at 3:30 under the direction of Miss Pat Austin. It will continue each week on Wednesdays from 3:30 to 5:00. Sports included are badminton, basketball, tennis and volleyball.

The tennis school is in full swing under coaches Elaine Fildes, Canada's number two seeded player, and Nanay Collinge, Edmonton women's singles champ. The school began indoors Friday night with seventeen aspirants.

the spot. The down remains the same. A fumbled forward pass is incomplete.

Downed Ball. The player is downed and the ball dead when an opponent touches him below the hips with one hand.

Passing.
(a) All players on the offensive team may receive passes.
(b) Any player on the defensive team may intercept passes.
(c) Passes may be thrown from anywhere behind the line of scrimmage.
(d) There is no limit to the number of passes permitted in each series of downs.

FOULS AND PENALTIES

1. It shall be counted a foul to tackle, trip, push, hold or rough another player. Penalty: Loss of 10 yards from spot of foul.
2. It shall be counted a foul to use the hands or to leave the feet (i.e. jump) in an attempt to block an opponent. Penalty: Loss of 10 yards from the spot of foul.
3. It shall be a foul for a man to be offside before the ball is put into play. Penalty: Five yards. The offending team may choose between accepting the penalty or the yardage.

Touch Football Rules

GENERAL RULES

- Only running shoes will be allowed—no cleats.
- A game shall consist of two 15-minute periods, with a five minute rest at half-time.
- A team is given four downs to advance the ball as far as possible. After the fourth down the opposing team automatically gains possession of the ball.
- Time out may be called twice during the game by each captain. Additional time out will be penalized to the extent of five yards and loss of one down.
- Time shall be taken when:
(a) The ball goes out of bounds.
(b) After a score is made.
(c) After the referee calls time for a captain.
(d) At the discretion of the referee.
- Scoring: Five points for a touchdown, one point for a convert.
- A team shall consist of nine players. By mutual agreement a team may play with fewer men. The offensive team must have at least five men on the line of scrimmage.
- Unlimited substitution is allowed, but subs must report to the referee before entering the game.
- In case of a tie, each team will be given four downs, starting from their

respective 10-yard lines, and the team advancing the ball the farthest in those four downs shall be declared the winner.

PLAYING REGULATIONS

- Starting the Game.**
(a) Choice of goals and kickoff.
A coin is tossed and the winner has the choice of ends, or the option of kicking or receiving. At the beginning of the second half the loser of the toss has the choice.
(b) Putting the ball in play.
The ball shall be put in play to start the second half and after a score, by a place kick from the 10-yard line of the kicker. The ball must go 10 yards on the kick or be kicked over. Kickoffs are free balls and may be recovered by either team.
- Kick over Opponents' Goal-line from the Kickoff.**
If the ball is kicked over the opponents' goal-line from kickoff, it goes to the opponents for scrimmage on their 20-yard line.
- Fumbled Ball.**
At any time the ball is fumbled during the scrimmage, after lateral passing, a kick or after a run, the ball is dead and belongs to the team at

YEARBOOK PHOTOS

A new method of obtaining student pictures for Evergreen and Gold is being used this year. We ask that you read this message carefully, and plan accordingly. For the good of the student body as a whole, if you miss your deadline—your picture will not be in the Yearbook, because the Yearbook is coming out on time.

There is only ONE Studio—The Studio on the Campus!

We have appointed one of Western Canada's best photographers to operate the official Evergreen and Gold studio in the new Students' Union Building. This is the only official studio this year. The studio will be open from nine in the morning until six at night, Monday through Saturday. It is up to you to make your own appointment, and keep it. Don't wait until the last day of your deadline. If the studio can't take you on that day—your picture will not be in the Yearbook. Make your appointment—no matter what your deadline—as soon after OCTOBER 9th as possible.

You get 4 poses for \$2.00 PLUS TAX

In order to maintain the highest quality of portrait work, the Evergreen and Gold studio will take four poses of every student. From the time of sitting, you will have five days in which to select the proof of your choice and return it to the studio. Otherwise the editors of Evergreen and Gold will make the selection they deem best. Such selection is made automatically after five days. You may, of course, order finished portraits for yourself at any time.

Here are the Deadlines

Last Names Beginning With:

FRESHMEN	A and J inclusive October 9 to October 13 K to Z inclusive October 14 to October 19
SOPHOMORES	A to Z inclusive October 20 to October 26
JUNIORS	A to Z inclusive October 27 to November 3
SENIORS	A to J inclusive November 4 to November 9 K to Z inclusive November 10 to November 15

If You are going to use a former Evergreen and Gold Picture . . .

Read This!

If you wish to use this year a picture you have already used in Evergreen and Gold, you must order a print IN PERSON from the studio where your picture was originally taken. Tell the studio to make up an Evergreen and Gold print, and send it to the Evergreen and Gold office. Give them plenty of time — because absolutely no prints will be accepted after November 15th.

FRANK HARPER, Director

President Stewart And . . .

. . . Send Greetings . . .

This is my first opportunity to extend greetings to all students at the University of Alberta.

You are here primarily for an educational purpose. The University must provide you with the conditions which will aid you in achieving your purposes. But what you take with you when you leave will be mainly the result of your own efforts. I would urge you to do the utmost for yourselves.

I hope you will remember the important place that student-directed activities occupy in the life of the University. Your participation in these activities are necessary to their success. The students you have placed in positions of responsibility deserve your support.

You are preparing yourself for the responsibilities of citizenship. In our days these responsibilities may be heavy; but there is nothing new about that. We will, I trust hopefully, prepare to live with purpose in this "the best of all possible worlds".

My best wishes to you all.

ANDREW STEWART.

WELCOME FRESHMEN

Two Freshmen obviously registering in Pulchritude 107 with some of the hired help around the Students' Union general office.

Students' Union Building, Conducted Tour

At last the long-awaited Union Building, fully equipped with the latest furniture and facilities, is open for the students' use and pleasure. The building which is only the first wing of a proposed three-wing edifice was officially opened in ceremonies held Thursday, September 28.

Why not join our group and we will tour this new structure to find out just what it contains? First, as we walk up the steps to the front door we notice the mural which was designed by Prof. H. G. Glyde of the University Fine Arts Department. Entering the door and going down the stairs there is a recreation room with three billiard tables and three ping-pong tables and plenty of comfortable chairs.

At the opposite end of the basement floor is the snack bar, which is open from 9:30 a.m. to 5:30 p.m. and 8:00 p.m. to 10:30 p.m. Monday through Saturday. Sundays and holidays the hours are from 11 a.m. to 10:30 p.m. Here students can buy sandwiches, malts, ice cream, cokes, and coffee. The various size tables in the snack bar allow students to gather in either large or small groups.

The lobby on the first floor contains a concession stand where cigarettes and candy will be sold, a ticket stand, a notice board, and several glass cases for the university trophies.

At the left of the lobby is the mixed lounge, which is to be used also for dances. Incidentally, the furniture in this room as well as in the other lounges was designed especially for the building. It is sectional furniture that can be easily moved around.

Opening off the right hall of the first floor are a cloak room, four telephones booths, the Alumni offices, a study room, and the Students' Council conference room. At the end of the hall is the men's lounge.

On the second floor to the left is the Wauneita room complete with an open fireplace and writing desks and an adjoining kitchenette and cloak-room. To the right is the Evergreen and Gold and Alarm offices which connect with a completely equipped dark room.

Down the right hall is the radio room with a sound and air-proof address control room. From this room records and announcements can be heard in all parts of the building.

Next to the radio room is the music room, which contains a grand piano and more comfortable chairs. On down the hall there are two conference rooms and The Gateway and Stet offices. At the end of the corridor is the faculty lounge and kitchenette.

With all these facilities, the University of Alberta has one of the finest Union Buildings in Canada, and the students have the opportunity to spend many enjoyable hours here on the campus.

President O'Byrne . . .

. . . To Freshmen

Of the many freshman classes that have passed through these portals of learning you are the most fortunate, for your arrival coincides with the opening of the Students' Union Building. Having seen it you will realize, in part at least, the tremendous effort that has been expended in the past to make its erection possible. You can show your appreciation by making full use of the facilities provided therein.

The activities sponsored by the Students' Union are many and varied. All that is necessary is a willingness to learn on your part—the people in charge are more than happy to teach. We need your help to make these activities a worth-while enterprise.

Today you are freshmen, but in the near future you will be the upperclassmen carrying the full weight of responsibility for the running of student affairs in all its forms. Pick an extra-curricular activity that interests you, and that you enjoy, and your life here will be the better for it.

On behalf of the Students' Union of the University of Alberta, I extend to each of you the heartiest welcome and wish you the best of luck in your University career.

MICHAEL O'BYRNE.

Around . . .

Preferences in activity were as widely varied as the facilities as the Students' Union Building underwent the inaugural ceremonies Thursday. Above (top) old friends and new acquaintances gathered in the mixed lounge to talk. A Lethbridge quartet (left to right) Malcolm Aspland, Betty Peterson, Dalphine Ward, and Donald Steele discuss the Rules for Frosh in the Handbook.

Lower Photo shows Derek Batcheller, Edmonton, trying out the new billiard tables, despite the handicap of a broken arm. Games Room is one of the most popular in the building for girls and boys alike.

. . . And About

Above (top) a young freshette enjoys the soft cushions of the mens lounge for the first and probably the last time with two admiring escorts. Bottom shows Wauneita Betty Swanson, Edith Pardley, Pauline Sutermeister, president of the tribe Wauneita, Lotalka Tkachuk, seated with Mrs. J. F. Morrison, Hon. President of the organization.

At left are several frosh taking advantage of the facilities of the Games Room. They are (left to right) Rodney Harle, Clive Griffin-Beale, Neil Devonshire, Jack Winklaar, Babdan Nichka, Derek Batcheller and Morley Hamilton.

New Arms For The U.of A.

The Old And . . .

. . . The New

"Arma virumque cano . . ." wrote the Roman poet, Vergil, as he began the Aeneid—"I sing of arms and the man . . ." Today the arms of which we tell are the newly revised arms of the University of Alberta, and the man is Professor H. G. Glyde of the Department of Fine Arts, who prepared the revision approved by the Board of Governors this spring.

According to Professor Glyde, the arms of any person or institution should be designed in accordance with the conventions of heraldry and the shield should be divided according to the accepted laws of colours and of metals. The curious student of heraldry will note that in the new version of the open book surmounting the St. George Cross sits squarely on the top instead of at an angle to the right. The hills and mountains below are also symmetrical instead of irregular as before.

The arms of the University are adapted from the arms of the Province of Alberta and differ from the Provincial arms in the addition of the open book in front of the sun's rays and the further addition of the motto "Quaecumque Vera" beneath.

The arms themselves are in full colour and offi-

cially represent the University without further addition. The letter-head, on the other hand, includes the name "University of Alberta" in an arc above the arms. Since letter-heads normally appear in black and white instead of in colour, it is necessary to prepare them from black and white line drawings in which the colours are represented by lines in various forms. Red is represented by vertical lines, blue by horizontal lines, and green by diagonal lines downward to the right, as shown in the cut on this page.

The official description or blazon is as follows:

Blazon: Azure, in front of a Range of Snow Mountains proper a Range of Hills Vert, in base a Wheat Field surmounted by a Prairie, both also proper, on a Chief Argent a St. George's Cross.

Crest: In front of Sun Rays Or, an Open Book proper.

Motto: Quaecumque Vera.

Copies of the arms in full colour suitable for framing are available in the University Book Store, as well as smaller copies of post card size. With the approval of the Board of Governors, these are being made available to students, staff, and alumni at cost.

WEDNESDAY, OCTOBER 4, AT 7:30 P.M.

Wauneitas' Registration Week Activities A Marked Success

Everyone has heard about the Wauneita Society and by now all the new freshmen have been initiated into this ancient tribe.

During the past week many

events took place in the beautiful pine-panelled Wauneita Lounge of the Students' Union Building. Coffee parties were held Monday and Tuesday, both morning and afternoon, for the freshmen and upper-classwomen. Girls representing various clubs were invited to serve and entertain at these parties in order that they might use this opportunity to contact prospective members.

Tuesday night the freshmen were kept scrambling here and there from the Ed Building all the way over to the Garnet theatre on a scavenger hunt. After having a gay sing-song and engaging in some robust Varsity yells, they gathered in the cafeteria for cokes and doughnuts.

The formal tea on Wednesday was very well attended with everyone turning out in their best satins and lace. The Wauneita room, adorned with leaves and flowers of crimson, gold and green, formed a colorful setting for the affair. Girls from Panhellenic and Pembina executive helped the Wauneita Council in serving their guests.

Thursday afternoon after the grand opening of the new Students' Union Building, a tea was held in the Wauneita Lounge by the representatives of the Wauneita Society, Panhellenic and Pembina.

The age-old initiation ceremony of the Wauneita tribe took place Thursday night in the glow from the fireplace, which was the Wauneita campfire. Mrs. Morrison Wauneita's honorary president, for this year, Mrs. Stewart, wife of the new University president, and Miss Simpson, dean of women, all spoke and gave words of wisdom and inspiration to the new Wauneita members and to the older girls of the tribe. Everyone joined in a hearty sing song and later enjoyed crackers and con-sumee.

Tuesday, October 3, an Activity Night is being sponsored by the Wauneita Council to inform all freshmen of the type of clubs which offer membership to them on this campus. It will be an entertaining and informative evening with interesting skits and humorous pantomimes. Everyone should plan to attend this event, which will be held in the Wauneita room at 7:45 p.m.

The Wauneita formal will be coming up on October 21, so girls be on the lookout for a handsome fellow to take to the gala affair.

Before this affair, however, Wauneita Council is planning a meeting for all its members, the object being to elect the Frosh representative, to lay plans for the formal and to disclose to the members the unique and extensive program for the year. Watch for the date of this meeting in the Alarm.

NFCUS Cancels Quebec Seminar Set For August

Delegates to the NFCUS conference in Quebec City last month heard the reasons for cancellation of the proposed NFCUS Seminar, which was to have been held in Quebec in August.

Plans fell through at the last minute when the Quebec government failed to provide money which NFCUS officials had understood would be forthcoming.

Despite this unsuccessful effort to hold a seminar, NFCUS will continue with plans to hold one next summer, probably in Quebec. Money will be sought from all the provinces this time, instead of relying on just one.

OPEN HOUSE FOR NEW STUDENTS

The first in a series of Open House parties for new students will be held on Sunday, October 15, at 3:30 p.m., in the Wauneita Rooms of the Students' Union Building.

Invitations will be mailed out early in October by the Director of Student Advisory Services, to about 150 students for the first get-together. Every new student will be invited to one of these parties, of which five will be held in the first term.

The parties will be sponsored by various student organizations to provide an opportunity for students to get acquainted with students in other faculties.

AFRICAN MUSICIAN APPOINTED EXAMINER IN LONDON

Ephraim Amu, 52-year-old African of the Ewe tribe, has recently been appointed as an examiner of the Royal College of Music in London, the first African ever to hold such a position.

Amu started as a teacher at the Presbyterian Teachers' Training College in Accra, where his musical compositions gave a new lease on life to many folk songs. He later won a scholarship in England, where he obtained Associate Membership of the Royal College of Music.

Returning to Africa, he became senior music master at Achimota Teachers' Training College, where he is regarded as a one-man encyclopedia on African music. He is now writing a book on the subject.—UNESCO.

Radio Society Announces First Meeting For Wednesday

Canadian Club Invites Students To Club Luncheon

Goodwill towards university students is motive of recent move by the men's Canadian Club.

New policy initiated on Monday, Sept. 25, was the inviting of two university students to the club's luncheon at the Macdonald.

Invitations are being arranged by Tevie Miller, secretary of the club and Students' Union president last year, through the International Relations Club and Political Science Club of the university.

Guests at last Monday's luncheon were Joseph Brumlik, president of IRC, and David McDonald, delegate to ISS Seminar in Europe this summer.

Mixer Dance First Feature Of Radio Society

First broadcast by Radio Society for this year was made from the Frosh Mixer Dance on Saturday night.

Featuring the dance music of Kay Pitcher's orchestra, it was on the air from 10:15 p.m. to 10:45 p.m. over CKUA.

Special guests on the program were Pat Mahoney, director of Freshman Week, and university president, Andrew Stewart.

Announcers were Jim Redmond and Dave McDonald. Operator was Norm Blamire.

First general meeting of the Radio Society will be held Wednesday, October 4, at 7:30 p.m., in the music room, second floor, Union Building.

Plans for the coming year's activities will be outlined by Jim Redmond and Dave McDonald, pro tem president and program director respectively.

It is believed opportunities for imaginative programming will be much greater than in past years. Specific ideas to be advanced is one full evening of student radio over CKUA, as opposed to last year's practice of having programs scattered through the week. Fulfillment of this plan depends on the number and capability of those interested in Radio Society work.

Last year the Radio Society produced five regular quarter-hour programs, including talent, a campus news and sports, and interviews. Special broadcasts included sports events and concerts.

Freshmen are particularly urged to attend Wednesday's meeting. Fields of radio activity include announcing, technical, drama and music.

Drama enthusiasts who are interested in radio drama work are asked to attend the radio meeting before attending Drama Club meeting which occurs later in the evening.

E. & G. NOTICE

There will be a meeting of all those interested in working on the 1950-51 Evergreen and Gold on Thursday, October 5, at 8 p.m., in the Evergreen and Gold office in the Students' Union Building. Everyone is welcome.

DOWNSTAIRS IN "TUCK"

Three Alberta Students Return From I.S.S. Seminar in France

Three University of Alberta students who were among fifty other students from Canada who attended the third Canadian International Seminar in France this summer, have returned to the campus this year.

Three University of Alberta students attended the conference as delegates. They are: David McDonald, 2nd year pre-law; Jocelyn Rogers, 3rd year Music; and Pauline Sutermeister, 3rd year Education student.

Theme of this year's conference, held at Pontigny, southeast of Paris, was "Crisis in Western Civilization", according to David McDonald. The five-week seminar featured lectures and group discussions by students from Canada and 17 other countries, he said.

Most valuable part of the conference were in informal talks among students from different countries. Mr. McDonald said he was particu-

larly impressed with the change in attitude between the German students and students from other parts of Europe.

At first the German students were reserved and those from other countries were at times hostile to them, he stated. As the conference progressed, understanding between the Germans and other students increased considerably.

Among Canadians who addressed the seminar were Dr. Brock Chisholm, director of World Health Organization, and Maj.-Gen. G. P. Vanier, Canadian ambassador to France, McDonald said.

Following the conference, the students had two and a half weeks to travel throughout Europe.

Stranded En-route

The Alberta delegates were among a group of students who were stranded in New York in June when

the ship that was to take them to Europe was declared as "unsafe" by the U.S. coastguard. An appeal by the American National Students' Association to President Truman resulted in an army troopship being put at the disposal of the Europe-bound students.

Most of the Canadian students were housed in private homes in New York and vicinity while waiting for a ship, McDonald commented.

Alberta delegates were sponsored in their trip by the Edmonton city council, the provincial government, and service clubs. The delegates will speak to service clubs, schools and university organizations on the seminar this winter.

The International Student Service is an international organization of university undergraduates and faculty members whose purpose is to further understanding among students and to provide student relief for those in Europe and other parts of the world. Another similar organization, the International Union of Students (I.U.S.), comprises national student organizations from various countries, but it is at present a communist-dominated group.

Made Regional Vice-Pres. . .

FRED SCOTT, 2nd year law student, was made western regional vice-president of the National Federation of University Students at that organization's annual convention in Quebec City this summer. Fred attended the convention as NFCUS representative for the Students' Union.

Union Mooted At NFCUS Meet

Among the more important moves made at the recent NFCUS Conference held in Quebec City is one which will seek ways and means to achieve "closer co-operation or amalgamation" between the National Federation of Canadian University Students and the International Student Service of Canada.

A committee of NFCUS will investigate the possibilities of a closer tie between NFCUS and ISS, and will make a preliminary report about October 6.

"This action was prompted by a desire to work more closely with ISS, and also because of practical financial and international considerations," Fred Scott, Alberta NFCUS delegate to the Quebec Conference, said Monday. "The delegates wonder if there is not some way that NFCUS and ISS can get together to avoid duplication of administration and activities."

Delegates wondered if it might not be possible to set up a National Student Association which would co-ordinate and include all the services, both national and international, which NFCUS and ISS now provide.

A Calendar For October

By Georges Fradier, UNESCO Staff Writer

"It was just a year ago today. . . It was ten years ago. . . This is our Golden Jubilee. . . This is the centenary. . . Just about a thousand years ago. . ."

The birthdays of a child, events in the lives of individual men and women, commemoration of the births and deaths of men and women who have lit torches along the road of history, red-letter days marking the advance of mankind—these are dates traditionally noted in the arbitrary reckoning which we call the calendar.

Nor forgetting the unknown and unsung persons and events, perhaps of equal greatness, making no claim at completeness, here are some noteworthy events which have taken place in October tenth month of the Gregorian calendar.

"The Great Encyclopaedia"

Two hundred years ago a Paris bookseller issued a prospectus announcing the early publication of an extraordinary work—a record of all human knowledge. Subscribers were not disappointed. In a few years, in the face of censure and legal disputes, "La Grande Encyclopédie" was brought out as 22 folio volumes with eleven volumes of plates. The main contributors were d'Alembert, d'Holbach and Voltaire. But the moving spirit was Diderot who threw himself heart and soul into the work. He had become the servant of "Reason", and his encyclopaedia remains the boldest monument raised by the eighteenth century to the glory of scientific thought.

"Representative Men"

In October 1850, Ralph Waldo Emerson published this collection of essays on a few great men. His friend Carlyle would have held them up as guides, but Emerson was content to call them "representative". Like most of his books, this volume reproduced lectures he had given: Emerson, descendant of a long line of Ministers, spent his life preaching and became the greatest of America's religious or lay preachers. He taught freedom, the dignity of the mind and the beauty of living: "A man contains all that is needful to his government within himself. . . All real good or evil that can befall him must be from himself. . ."

The Lover of Insects

Jean Henri Fabre was a French school teacher who took an intense interest in spiders. But hymenoptera, particularly wasps, was the object of his finest discoveries throughout 60 years of research. Their cunning way of stinging their prey just about the ganglion cell so that they could be given fresh to the young worms to eat seemed to M. Fabre to prove an intelligence incompatible with the theory of instinct. When he died on 11 October 1915, he left behind ten volumes of his "Souvenirs entomologiques"—a most readable day-to-day record of his fascinating discoveries.

Geoffrey Chaucer

On 25th October 1400, Geoffrey Chaucer died under the shadow of Westminster Cathedral where he was

buried in the chapel, know to-day as "The Poets' Corner." Eustache Deschamps, one of his French contemporaries said of him: "He is the great translator whose poetry illuminated the reign of Aeneas". But Chaucer was far more than a translator: his "Canterbury Tales" belong not only to his people but to the literary treasure-house of mankind. Dryden said of the Tales: "They reflect the varied manners and moods of the whole English people". In writing them, he made a selection unheard of in his day; his characters were men instead of mere symbols.

Lord Macaulay

Lord Macaulay's first article was an attack on slavery. His first public address in 1826 was given to the assembly of the Anti-Slavery League and the subject of his maiden speech in the House of Commons in 1830 was the emancipation of the Jews. Macaulay was born on 25th October, 1800, and throughout his career as a statesman, essayist and historian he took up the defence of individual freedom and common sense. In Calcutta he drew up a new Indian Legal Code, promulgated in 1838. On his return to England he left the Civil Service when his work on behalf of a Catholic Seminary, carried out in the name of religious freedom, incurred the hostility of the Scottish churchmen.

The Triumph of Chemistry

On 26th October, 1885, after curing a young shepherd named Jupille of rabies, Louis Pasteur described his treatment to the Paris Academy of Sciences. He was loudly applauded—chemistry had begun to show its power in the field of medicine. Yet there were sceptics and even enemies; a doctor gravely outlined objections to the theory of microbes. Pasteur spring to his feet: "Sir, I understand little of your word", he said. "Let me hear no more of your dogma. I am a chemist; I carry out experiments and try to understand the lessons they have to teach".

The Second Olympiad

The second Olympic games, inaugurated a few years previously by Baron Pierre de Coubertin, ended in Paris on 28th October, 1900. It had not been easy to overcome public indifference and national jealousies. Greece had been determined to make Athens, the home of the first games, the permanent centre of these sporting contests. But Coubertin was adamant: "If they are to be ultimately successful", he declared, "the Olympic Games must be strictly democratic and international". But he had to persevere for years before sportsmen all over the world had accepted the ideal he summed up in the famous statement: "What matters in life is not victory, but the struggle; the essential is not winning but fighting a good fight. In spreading these principles we will teach mankind to be more courageous, stronger, more scrupulous and more generous".

FRESHMEN..

THE RUF OFFERS:

Pay during the University Year.
3 years assured Summer Employment at \$153.00 per month plus food and lodging.

An opportunity to contribute to Canada's expanding Defence Forces.

The RCAF RUF offer appointments as FLIGHT CADETS with officer status in the following Lists:

AIRCREW	LIST
TECHNICAL	LIST
MEDICAL	LIST
SUPPLY	LIST
ACCOUNTS	LIST
SPECIAL	LIST

TRAINING

Includes 25 hours of general study during the University year and 20 weeks of practical training during the summer in the List or Branch to which appointed.

RCAF CAREERS

A successful graduate of an RUF may be commissioned in the RCAF (Regular), the RCAF (Reserve) or the RCAF (Supplementary Reserve).

NATIONAL SECURITY MEANS PERSONAL SECURITY

This is your opportunity to serve Canada and help yourself.

with a package of Player's"

Season's Program Announced By Canadian Film Institute

Drama Society Opens Season With Meeting

The University Dramatic Society will hold its opening meeting of the new term on Wednesday, Oct. 4, at 8:00 p.m. in Huts "A" and "C", it was announced by Laughlin Taylor, president of the society. Plans and projects for the coming year will be outlined and discussed. Interesting films will be shown and refreshments will be served. Those interested in all phases of dramatic work, acting, directing, designing, stage work, lighting, etc., are urged to attend and meet the older members. Other members of the Dramatic Society executive include Grant Reddeck, vice-president, Eric Harvey, secretary, Norma Weitz, treasurer.

Mixed Lounge Scene of Smoker

Walls of the mixed lounge bulged Wednesday evening as a capacity crowd of Freshmen and upperclassmen thronged into the mixed lounge of the Students' Union Building to attend the annual Frosh Smoker.

Pat Mahoney, Director of Frosh Introduction, put the meeting into high gear with several good stories. Frosh caught on immediately, and produced yarns of the highest quality in rapid succession.

Prof. Van Vliet and members of his staff from the Physical Education Department were introduced by Jim Dockery, vice-chairman of the UAB. Prof. Van Vliet gave the Freshmen a thorough summary of the athletic and physical education activities on the campus. This was supplemented with an outline of the Intramural and Intercollegiate sports program.

The feature of the evening was a film of the 1949 Grey Cup finals and a short by Ted Williams.

The meeting concluded in the snack bar, where cokes were distributed.

Plans Ready For S.C.M. Fall Camp

Student Christian Movement will hold its first major activity of the year Saturday, October 7, when a group of University of Alberta students hold a Fall Camp at Telfordville, which is located east of Leduc.

The camp will be a combination study and work project, with the students working in the community during the day and discussing the place of the Christian in the community during the evening meetings.

The first work to be undertaken will be the clearing of the grounds around the Community Hall at Telfordville of brush and deadwood and the fixing of the interior of the building.

The Rev. Mr. Gerald Hutchinson, a former national secretary of the SCM, will lead the evening study groups, which will combine discussion and Bible study in an effort to answer the question, "The Christian's Vocation in the Community."

Members of the camp will attend a Thanksgiving service on Sunday, and those with musical talent will assist Rev. Hutchinson in the other church services held in his parish during the day.

Applications for the camp are available on the principal notice boards throughout the campus, and further information can be obtained at the SCM office in the basement of Athabasca Hall.

An outline of the activities of the SCM for the coming year include study groups on "What is Christianity?" and regular Bible study centered around the New Testament, several visiting speakers, Sunday evening firesides, and social events.

The SCM is open to all students who are seriously interested in what the Christian faith is and what it has to offer. It is not a denominational organization.

NOTICE

On Wednesday morning I left my fawn colored topcoat outside the snack bar in the Students' Union Building. That was my mistake. Someone took it. Please return to Phil Nance at 11144 87 Ave. Phone No. 34407. P.S.—If you are an engineer, I have your coat.

Ample coal and coke supplies for the coming winter are reported by Oslo Municipal Fuel Bureau.

WINS SCHOLARSHIP ...

... FROM SHELL OIL

The Shell Oil Fellowship for University of Alberta goes this year to Thomas M. Wilson of Three Hills and Ghost Pine Creek.

A native of Chilliwack, B.C., Mr. Wilson received his high school education at Three Hills, Alberta, where his father, Joseph M. Wilson, farmed. Entering engineering school at University of Alberta, the honour student obtained first class standing in all four years. He graduated last May with distinction, and received his B.Sc. in Engineering Physics.

The Shell Oil Fellowship provides \$750 and tuition. Shell Oil Fellow-

Propose Union I.S.S., N.F.C.U.S. For Solid Front

National Federation of Canadian University Students may amalgamate with International Student Service to present a solid student front against communism in Europe, declared Michael O'Byrne, president of the Students' Union, on his return from a NFCUS conference in Quebec.

If joining of the two groups is carried out, the national student organization in Canada will be closely linked to student groups in other countries, and particularly in Europe, O'Byrne stated.

The five-day conference at Laval University, Quebec, was attended by 40 representatives of student groups across the Dominion.

Accompanying O'Byrne was Fred Scott, law student from Calgary, and University of Alberta chairman of NFCUS, who was appointed vice-president of the NFCUS western region, at the conference.

Also discussed at the conference was raising of fees to establish a permanent national office at Toronto. Increase would mean 20 cents of each student's fees at universities across the country would go towards support of the national organization. At present each student contributes six cents of his fees to the federation.

ships are awarded annually at University of Alberta, University of British Columbia, Queen's University and McGill University.

University of The Dance

By Lucienne Noblet
Special UNESCO Writer

The dance, the most ethereal and elusive of all the arts, is at the same time the most difficult and exacting. It is perfect harmony between body and mind; everything enriches it—not merely technique alone, but intelligence and thought as well. Yet today, when most large cities possess academies of science, letters and fine arts in which doctors, painters, actors and musicians can perfect their knowledge and learn from the great masters of the past, there is only one city which has a "University of the Dance"—Paris.

The world's first Choreographic Academy was founded by the Paris Opera three years ago as a means of completing the intellectual training of dancers, by making the rich world of culture available to them.

Though rooted in firm traditions, the dance is always evolving. At the same time, there has always been conflict between the partisans of "pure dancing" and those of "miming"—the "technicians" and the "artists". The former uphold acrobatic virtuosity; the latter extol "expressionism".

There is no other art in which collaboration between the performer and the author is so close. It is a well-known fact that a given part may create quite different impressions when interpreted by different

dancers. The dancer is a true creator on whom depends not only the interpretation of a figure or a step, but also the general atmosphere of a work.

There have often been artists who, for lack of culture, failed to fulfil the promises that their talent suggested. In the time of Louis XIV, who founded in Paris the Academy of Music and Dancing which was and still is a magnificent school of technique, dancers were so little educated that a current European expression was "as stupid as a dancer".

All great artists, at some moment in their lives, have come to understand the value of a culture extending beyond the range of their professional calling. One has only to remember Debussy who, "going back to school" after he was thirty, set the seal on his musical genius by studying literature and poetry.

It was with the primary aim of completing the intellectual training of dancers that the Choreographic Academy was founded in Paris in December, 1947, the second object being to train first-rate ballet-masters, so lacking in the world of the dance.

The Academy's work began modestly enough with weekly classes in the Library of the Paris Opera, covering general aesthetics, the history and aesthetics of music, the visual arts, the dance and dramatic art.

Not only do the courses broaden

the artists' comprehension and enrich their intelligence, but they also stimulate the enthusiasm and the taste for creation—invaluable assets to dancers dedicated to their art.

The first results of this instruction have been followed with keen interest both in France and abroad. This was especially true when students made their first public appearance in Paris at the Cité Universitaire last year. The young dancers, even from the Opera's elementary classes, revealed great promise and a lively sense of composition.

This year, when the students re-assemble in October, after the ballet tour of South America, a ballet author's competition on the theme of Dan Juan will be organized.

Today, the repercussions of its success are bringing the Academy valuable support. The French Department for the Decentralization of Art is showing great interest in its work, and a number of countries—England, Denmark, Austria and America—are considering the setting-up of similar institutions. Meanwhile they proposed to provide grants to enable students to train in Paris, where the question of their study facilities is now being considered.

The Choreographic Academy of the Opera has, despite its comparatively short existence, already pointed the way to the enrichment of one of the universal languages—the dance.

In the new diesel electric locomotives Nickel Steel gives greater strength with less weight. Steam locomotive boilers are made of Nickel Steel—tough, strong and durable at high temperatures.

Frames of modern locomotives and railway cars are made of Nickel Steel—stronger, lighter in weight. Springs and roller bearings are of tough, long-lasting Nickel Steel. Many modern trains are largely built of Stainless Steel, containing a high percentage of Nickel.

Back in the dining car kitchen those gleaming surfaces where food is handled are "Monel"—a sanitary, rust-proof, Nickel-Copper alloy.
